PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in Java, Spring Boot, Flutter, REST APIs, MySQL, MongoDB, Docker, and AWS. Experienced in developing full-stack applications, implementing CRUD operations and RESTful services, integrating databases, containerizing applications, and deploying cloud-based solutions. Strong interest in backend development, cloud technologies, application deployment, and building reliable software solutions.

TECHNICAL SKILLS

Programming	Java, Python, C, C++, JavaScript, SQL, Dart
Backend	Spring Boot, REST APIs, JDBC, Maven, Gradle
Frontend / Mobile	Flutter, HTML5, CSS3
Databases	MySQL, PostgreSQL, MongoDB
Cloud / AWS	EC2, S3, RDS, VPC, ALB, Auto Scaling, CloudWatch, SNS, ECR, ECS, Route 53, CloudFront
DevOps / Tools	Git, GitHub, Docker, Linux, AWS CLI, Postman, Swagger
Infrastructure / CI/CD	Terraform, CloudFormation, AWS CodePipeline, AWS CodeBuild

PROFESSIONAL EXPERIENCE

Associate Software Engineer Intern

ThynkTech India Pvt. Ltd., Pune

Sep 2025 – Mar 2026

6 Months

- Developed cross-platform mobile applications using Flutter and integrated applications with RESTful backend APIs.
- Developed and maintained backend services using Java, Spring Boot, MySQL, and REST APIs.
- Implemented CRUD operations, database integration, and API communication for application modules.
- Containerized applications using Docker and worked with AWS services including EC2, S3, RDS, IAM, and CloudWatch.
- Worked with AWS CodePipeline and CodeBuild for application build and deployment workflows.

SOFTWARE PROJECTS

Barber Booking Application

Flutter / Spring Boot / MySQL

Full-stack appointment booking application with customer, barber, service, and booking management features. Implemented REST APIs and database integration.

B2B Trade Portal

Flutter / Dart / REST API

Flutter-based B2B platform designed to support business product discovery, business communication, and trade-related activities.

Note Editor

Flutter / Dart / Local Storage

Flutter-based note editor implementing local cache data management and complete CRUD operations for creating, reading, updating, and deleting notes.

MedicarePlus

Flutter / Spring Boot / MySQL

Healthcare appointment booking application with user, doctor, schedule, and authentication functionality.

E-Commerce Application

Flutter / Spring Boot / MySQL

E-commerce application implementing product management, cart, order processing, and backend REST APIs.

JobListing Portal

Spring Boot / MongoDB / Docker

Job portal supporting job posting, job searching, and application management with REST-based backend services.

CLOUD PROJECTS

- AWS Static Website Deployment:** Hosted a website using Amazon S3 and configured IAM, Route 53, and CloudFront for access control and content delivery.
- Highly Available Web Application:** Deployed a Spring Boot application using EC2, Application Load Balancer, Auto Scaling, RDS MySQL, CloudWatch, and SNS.

EDUCATION

B.E. in Computer Engineering

Keystone School of Engineering, SPPU, Pune

2022 – 2026

CGPA: 6.58

HSC – Maharashtra State Board

2022 | 57.80%

SSC – Maharashtra State Board

2020 | 80.60%

CERTIFICATIONS

- Java and SQL Development Program – EXL & TNS India Foundation
- ServiceNow Virtual Internship Program – SmartBridge, AICTE & ServiceNow University
- Six Months Software Development Internship – ThynkTech India Pvt. Ltd.
